Entry at 13+

- Parents complete the Registration Form and pay the non-refundable £100 Registration Fee. This indicates an interest in the school but is not binding.
- Approximately 18 months prior to entry those who have registered are offered firm places subject to a reference and school report from the pupil's current school, in-house interviews and satisfactory results in the entrance examinations Parents complete the Final Acceptance Form, Parental Contract and pay an £800 deposit, £500 of which is offset against the final term's account. The deposit is only refunded if a child fails to reach the required entry standard, or is withdrawn on medical grounds.
- Pupils are accepted into the school via one of three entry procedures:
 - The Common Entrance examination in June of the year of entry. The school requires pupils to reach a minimum standard of 55% in each of English, Mathematics and Science with an overall average of 55% in the other subjects. If a prep school has concerns that one of its pupils is not going to make the grade at Common Entrance, then the pupil will be asked to sit a pre-test in the November prior to entry. If St Edward's finds that the child is below the required academic standard, then the offer of a place is withdrawn and the deposit refunded.
 - The 13+ Entry Examination. This is for children coming from schools which do not prepare for Common Entrance. Pupils come to the school in the January prior to entry in the September and sit the School's own entry examinations in English, Mathematics and Science. In addition to this they take a Non-Verbal Reasoning Test and have two interviews.
 - The Academic Scholarship. This is sat at the school at the end of February / beginning of March and pupils sit the School's own scholarship papers in all subjects. Children who do not reach the standard to be offered an exhibition or scholarship are generally offered a place at the school based on their results. Those that pass the scholarship papers at a high enough level are not required to sit any CE papers at their current school.

In cases where a child is at a school which finishes at 11, the school can offer an 11+ Entry Examination (English, Mathematics and NVR) or an 11+ Scholarship (English, Mathematics, Science, General Paper and NVR) and offer a place to be taken up two years later.
